

Profile

Light Logics Holography and Optics

Light Logics is a Company with core capabilities in Holographic Imaging and Photonics. This techno-intensive Company is lead by a set of internationally renowned scientists and technologists with more than twenty years of R&D and industrial experience in Holography, and with proven track record in executing challenging projects in advanced areas of holographic imaging. This makes us a unique company with cutting edge capabilities in its true literal sense. Light Logics is an ISO 9001-2000 company and a corporate member of SPIE-USA, Asian Anti-counterfeit Association (AAA), IPAMA and the Optical Society of India - representative of the country in the International Commission for Optics.

The state-of-the-art Holography Laboratory, Studio, Production and Research facilities are on one of the most tranquil and pristine Thiruvallom Hills, apt for holography, near Kovalam beach, Trivandrum. The national level operations, and part of the R&D activities are executed from our Centre at Technopark, Trivandrum, the first CMM Level 4 Technology Park of India. The Global Operations Centre of the company is in Ras-Al-Khaimah, UAE.

Products

- Security Hologram Masters
- Holographic Machinery and Systems
- Security Holograms and Display Holograms, HOEs
- HoloSecure Card, Hologram Readers, Optics
- Holographic Photopolymer, Holographic Materials
- Opto-mechanics, Education and Hobby Kits

Services

- Hologram Mastering
- Display Hologram Studio
- Research and Development
- Training in Holography
- Turn-key setting up of Hologram Production Industries
